Good Deeds

St. Jude the Apostle School

Révolution de L'Automobile, affectionately known as Rév Auto, took place at Sherwood Country Club in Thousand Oaks in late February. The celebration of the automobile as art and as a cultural icon featured a collection of preserved classic cars and several current high-end automotive designs, including a handpicked selection from Ferrari to showcase innovations the carmaker developed over the course of its 70-year history. A portion of the event proceeds benefitted St. Jude the Apostle School (stjudeschool.org), a private Catholic school serving grades K through 8 in Westlake Village.
